 nos.* _____ received by this Authority on _____
 nos.* _____ received by this Authority on _____

the drawings:
 sheets 1/2-2/2 as originally filed/furnished
 sheets* _____ received by this Authority on _____
 sheets* _____ received by this Authority on _____

a sequence listing and/or any related table(s) – see Supplemental Box Relating to Sequence Listing.

3. The amendments have resulted in the cancellation of:

the description, pages _____
 the claims, nos. _____
 the drawings, sheets/figs _____
 the sequence listing (specify): _____
 any table(s) related to sequence listing (specify): _____

4. This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).

the description, pages _____
 the claims, nos. _____
 the drawings, sheets/figs _____
 the sequence listing (specify): _____
 any table(s) related to sequence listing (specify): _____

* If item 4 applies, some or all of those sheets may be marked "superseded."

Box No. V **Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**

The subject matter of the application differs from D1 in that, according to D1, high bonding strengths can be obtained, but the bonding strengths have different degrees of uniformity. A comparison of the examples given in the application with the comparative examples shows in particular that the objects described in D1 do not have the claimed parameters. This is particularly evident from the standard deviations of the bonding strengths.

The problem addressed by the application can be seen as that of improving the objects known from D1 in terms of their bonding strength.

Independent claims 21 and 22 relate to methods for the production and use of the subject matter claimed in independent product claims 1, 6 and 7. They are therefore not novel.

Therefore, the subject matter of independent claims 1, 6, 7, 21 and 22 appears novel and inventive in accordance with the PCT.

4. Other points

In view of PCT Article 6, it does not seem appropriate to have more than one independent claim per category. In the present case, the number of independent claims (product claims 1, 6 and 7) is confusing and makes it more difficult to determine the subject matter for which protection is sought by the applicant (PCT Rule 6).

The subject matter of the present application is
